Notice of Allowability	Application No.	Applicant(s)		
	10/631,005	RALL, BERNHARD		
	Examiner	Art Unit		
	James Cho	2819	<u> </u>	
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.				
1. X This communication is responsive to the application filed.				
2. ☑ The allowed claim(s) is/are <u>1-16</u> .				
3. The drawings filed on are accepted by the Examine	er.			
 4. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a)				
Attachment(s) 1. ☑ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☑ Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 7-31-2003 4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material	Paper No./Mail Date	(PTO-413), te ment/Comment		

DETAILED ACTION

Drawings

The drawings are objected to because lines, numbers & letters in Figs. 5-9 are not uniformly thick and well defined, clean, durable, and black. 37 CFR 1.84(I) as well as Fig. 5 and Fig. 6 should be labeled as Fig. 5.a, 5.b, 5.c and Fig. 6.a, 6.b respectively. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-16 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: Although Wu et al. (US PAT No. 6,690,191) teaches a bidirectional output buffer with active termination and separate driving and receiving impedances, one of ordinary skill in the art would not have been motivated to modify the teaching of Wu et al. to further includes, among other things, the specific of a differential mode signal transceiver coupled to a data bus where each connection interface comprises a reactor that filters interferences on the data bus and the reactor is connected between the data bus lines and an associated transceiver unit, and an adaptation resistor network that adapts characteristic wave impedance of the data bus lines, etc., as set forth in the claims. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

Application/Control Number: 10/631,005

Art Unit: 2819

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Patel et al. (US PAT No. 5,835,535) discloses a data bus interface driver capable of biasing data to the voltage level of the data bus.

Gay et al. (US PAT No. 5,467,455) discloses data processing system and method for performing dynamic bus termination.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Cho whose telephone number is 571-272-1802. The examiner can normally be reached on M-F 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mike Tokar can be reached on 571-272-1812. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
